## SPORTS WITH THE BALL THAT THE BASE RALL AND BOWL

ING MEN ARE DOING.

A Breir Time at the Central League Meeting-The New York and Athletic Clubs Will Not Play a Spring Series-Gossip, President Day and George Munson of the Louis Club had a short talk about the Assosaidos schedules yesterday. Among other hings Mr. Day said: "I don't see how the thises. Mr. Day said: I don't see how the shedule can be changed. Both are now made in and even if they were compared neither see would care to make any change." From the way in which Mr. Day spoke it would seem s though he. as Chairman of the League schedule Committee, was not inclined to make an changes just to benefit the American Assosallor. The only benefit that the League would derive from such changes would be the doing away with some conflicting dates in Philadelphia.

It is now quite certain that the New York and Athletic clubs will not play a spring series. President Reach of the Philadelphia Club wants to arrange a series of games with the Brooklyn Club in Philadelphia, but Manager Barsig of the Athletics thinks that the Brookhas will be too big an attraction, and therefore does not care to allow the Brooklyns to fore does not care to anow the brooklyns to play the Philadelphia Club. For this reason Basch will not allow the New Yorks to play the Athlettes in Philadelphia. It is a similar trou-ble to that which came up once before.

The New York Club managers have arranged the following games to be played on the Polo grounds this spring: On Saturday, March 30, grounds this spring: On Saturday, April 6, few York players; on Saturday, April 6, few Hines of New York players; on Wednessieked hines of New York players; on Monday, which do not be the players; on Monday, april 10, Princeton; on Saturday, April 18, Princeton; on Wednesday, April 17, and on Thursday, April 18, Yale; on Saturday, and 20, picked places of New York players, two dates will be reserved for the Harvard sam.

A large number of petitions sinced by graduates, have been sent to the Amherst senate, and that body will undoubtedly endorse the scheme. The candidates for the nine have already gone into active training in the symnasium. A number of good hase ball men have entered college this last year, and a good deal of money has already seen subscribed for the support of the nine, that the prospects for a successful base ball season are bright.

PHILADELYHIA, Jan. 11.—There was quite a slary of base ball talent around the Washingta Hotel to-day. President Von der Ahe of a Louis was the meet prominent figure, and he crowd cald him the most attention. Manager Billy Sharsig of the Athletics was there, and so was Mike Helly. Bobby Matthews. The Bancroft and Charles E. Mason. Van der Ahe talked very confidently about securing before the but from what he let drop it was sink that he had doubts about his side of the see being the right side. Chris says the Lowal people are trying to squeeze him out of \$300, and that is all there is in the case.

President Von der Ahe went to Baltimore his vening, where he is to consult Manager larns on important business. Bobby Mathers had a long talk with Von der Ahe, and be latter promised to use his influence to have the veteran pitcher made an umpire in the association.

Trank Bancroft went out to the State fair grands to-day to view Charley Mason's traines exhoci for ball players, and to see the big budding where indoor base ball is played.

Borrow, Jan. 11.—President Soden of the Rosion Base Hall Club says that there is no much in the rumor that Dick Conway has been missed to the Detroits. He says that an agent of that club was here to secure that slays, but his efforts were unsuccessful. It was intimated that the right kind of an offer yould secure Conway for some club. Director fillings says that Kelly has not meant half that he has and doubt that a great deal about that player has been made out of whole cloth. He says, to, that there is plenty of time between the present and the opening of the season, and he so tat all anxious as to the way things will shape themselves.

Haziaron, Jan. 11.—The directors of the HALLMON, Jan. 11.—The directors of the Central League met in this city this afternoon. The clubs were represented as follows: A. C. Campell, Wilkesbarre: W. C. Smith, Elmira; P. T. Fowers, Jorsey City; J. W. Collins, Newgrit; W. M. Douglass, Allentown, and C. W. Klins of Hazleton, Messrs. A. A. Sage, Howard Muchler, and James Freeman of Easton were also present in the interest of the Easton Club, Program of the Caston also present in the interest of the Laston Citic. Prior to the meeting the directors were banqueted by C. W. Kline, President of the League, and a royal good time was had. The meeting washed in the office of President Kline and was long and stormy, and the directors were all plates to secree.

by the Easton Club.
At the beginning of the season Jersey City, Alientown, and Newark advanced \$500 to be loased to the Easton people with which to conside their club, with the understanding that this sum was to be forfeited when the recipts warranted it and the club was on a sustaining basis. They agreed that the guarantee money was to be deposited in the hands of A.C. Campbell until such time as it should be needed. The money was contributed by the above-named clubs, but the Easton Club elleged a severe hitch in the carrying out of the acreement.

Herelofore the Chicago Leaguers have never stared a League race without rigorous training. This used to be the bane of Kelly's existence, for Anson would not consider his great all-around player in condition until he had stamed off all his winter flesh between the beary biankets at the club house. Williamson, Baldwin, Pfelfer, and Laly muke flesh and the same of a League race, and it is expected here that these men will be better able to stand start at the case than play good ball when the same some off the reel. Capt. Anson's absence also interferes with the training of the Rembers of the team who were left behind. For will not have the benefit of the usual southern baths and exhibition rames, nor the good which comes from playing logether.

On the whole it is expected that when Anson have been wined and dined from Cedar Rapi's to Monte Carlo, will be in poor condition to make much of a stand.

## BASE BALL NOTES.

There are 542 amateur clubs in Philadelphia. Manager Hickey of the Clintons is working hard to put a strong team in the field.

Pelerson of last season's Atlas team is looking for a position in the Western League.

Superintendent Kell of the Polo grounds is a strict through Connecticut for his health. George Munson, Secretary of the St. Louis

Frank H. Burns of Penfield will be given a trial on first base by Rochester. He has a good amateur record in that position.

Jack Bowe of Buffalo says that Hamburg, Grant, Carroll, Lehane, and Welch, reserved players, will be signed by Buffalo for next season.

It is reported that Newark and Jersey City want the size of the International Association increased to ten clubs. Hamilton and Toronto, it is understood, will yote against the scheme.

Athletic Notes.

N. R. Burckhardt is leading for the P. A. C. point medal. The Games Committee of the Amateur Union will meet this afternoon.

The A. C. S. N. will enter fourgmen in the Gymnastic Championship. Secretary Ruhl says now that he has re-vised his list the entries foot over 700. Yale College has sent thirty-four entries and a tug-of-war team to the big Union games. Any afternoon a score or more athletes can be seen training in the Madison Square Garden. Fifty-eight boxes at \$10 each have already been disposed of for the Union games on Jan. 19.

The regular monthly meeting and entertainment of the Olympic Athletic Club on Friday evening was a great success. After President Halpin had distributed a few pearls of wisdom a collation was served and a regular programme of songs and recitations was enjoyed. T. Avery Collett of the Pastime Club gave, among other clever selections, "The Correct Card," a touching racing poem, Mr. Johansen's sermon was loudly applauded, and the balance of the programme, consisting of songs by Measre, Fleischman, Singermund, Lee, Korth, and Rascovar, made the evening lively. The game of checkers between Tommy Lee and Frank Isherwood for the championship of the club, and which was played on the new trousers of the former, was close and interesting, but Mr. Lee owned the board, and he ultimately won the game.

Seeing "Red" Shears's challenge in The Sun to fight me for \$50 in yesterday's edition. I would say that I am no fighter, simply a boxer, but will oblige his highness Red, and will post a forfeit if Mr. Shears will meet me at Police Gazette office on Saturday, I called at his residence, and he had left for a week, so I was told. Yours respectfully.

Mr. James S. Conlin of Conlin's rifle, nistol, and record gallery, 1.255 Broadway, announces that a rifle match will be held at his gallery for the championship of New York city and vicinity, beginning Monday evening next, for prizes aggregating 475. The match is open to all comers at an entrance fee of fifty cents per man. Ten consecutive shots will be fired off hand at one target, with a ten-pound rifle firing 22-calibre cartridge.

The Eugene Hornbacker A. C. will give its second nublic exhibition at the club house, 76 East Fourth street, to-night. Among the sparrers who will put on the gloves are Jack Hopper, Jim McNamee, who boxed four rounds with Jack Dempsey in Brooklyn just before the Nonparell started on his starring trip; Tommy Kelly, the Harlem Spider; Jack Grace, Billy Clarkson, and others. There will also be some wrestling, club swinging, banjo playing, and quartet singing.

Henry Stedeker, the well-known bookmaker, and partner of Willam Sexton in the billiard business at Broadway and Thirty-fourth street, complains that his name is not Stockton, as the types made it a day or so ago. Henry says his new fast cushion tables will be unequalled for scientific playing. The partners are having their rooms entirely overhauled, and Mr. Sexton, who will enter the big tournament along with Scheefer and the other cracks early in February, will begin practice in a week. Killed Himself in a Vacant Lot.

A man who had killed himself was found in a racant lot at 190th street, east of Tenth avenue, early yesterday morning. The lot is below the street level. He was sitting with his back against a rock, his right hand covering a pistol on the ground. A bullet hole was in his right temple. He was about 40 years old, had light brown hair and a full beard, and a slightly crooked nose. On the back of his right hand is a ring tattooed in India link. He wore a brown overcoat, blue under coat and vest, brown striped trousers, and a blue fannel shirt, and had on a pair of rubber beets. In his pockets were a package containing a few grains of white powder, a ferry ticket to Jørsey City, and two collar buttons. The backage hore the name C. I. Welmann, Fairwise pingmany. The address had been torn off. The body is now at the Morgue. vacant lot at 190th street, cast of Tenth avenue, early

The question of arranging a dancing programme for the annual ball of the Brooklyn Emerald Society, which will take place on Dec. 22, is giving the Society, which will take place on Dec. 22, is giving the managers of the affair some trouble. Mr. Patrick S. Gilmore will, as usual furnish the music, and it was the opinion of the Music committee that the arrangement of the proframing should be left entirely in his hands. Mr. Paulse, a leading member of the society, has suggested to the committee that it would be desirable to have fewer round dances on the programme. THE GREAT MAILROAD COMPACT.

Wall Street Walts to See Results and Reads the New York Times Cross-eyed, The railroad Presidents and their associates who took part in the great conference of Thursday began to leave the city yester-day. They will not meet again until the agreement for the establishment of an Inter-State Commerce Association has been signed by the executive officers of the several companies that have agreed to it. The work of securing signatures rests largely with President Marvin Hughitt of the Chicago and Northwestern Company.

Two of the companies that were not repre-

in a public way yesterday as favoring the scheme. They were the Chicago and Alton and the Southern Pacific. The Illinois Central was non-committal, at least for publication. The official answer of the blackmailing Chicago, Burlington and Northern will be awaited with the most interest of any.

The new agreement did not arouse any enthurlasm in Wall street, nor is it likely to for some time to come. The street has been fooled so often in such matters that it prefers

rangement.

Wall street is proverbial for the shortness of its memory, but that faculty is in sufficiently good repair to enable the street to have a good deal of amusement at the expense of the New York Times. Hardly three months ago an alleged railroad expert, or expert accountant, who figures in Wall street as a satellite of Mr. Addison Cammack, whose chronic bearish procivities are a matter of national notoriety, prepared an analysis of the latest returns and financial statements of the Rock Island Company that was calculated to scare the average stockholder out of his wits. It was as bold and unscrupulous an attack upon the credit of a company as was ever made in Wall street, and the work and its author were promptly denounced in The Sun and other reputable papers. The attacks were printed in the usual organ of the bear clique, the New York Times, and were enforced with all the sarcasm and innucadoes that the Wall street department of the paper could command. The purpose of the attacks was apparent to a novice in speculation. It was to scare holders out of their stock and to an extent they succeeded. The officers and friends of the Rock Island Company protested that the concern was not financially retten or on the verge of bankruptcy, as the publications in the Times would lead the public to believe, but their explanations and protests were ridiculed. All of this is vividly recalled in Wall street now that the Times has come out as the champion of President R. Cable of the Rock Island Company. The lack of consistency at once deprives the later publication of any consideration whatever for the Rock Island stockholders.

The Times made a further exhibition of its dual character yesterday morning by commending, in the first paragraph on its editorial page, the action of the Western railroad Presidents on Thursday, while on the opposite subject was sneered at the failure of the new agreement substantially predicted, and the impression conveyed that whatever has been done is in the interest of Mr. Jay Gould, an rangement. Wall street is proverbial for the shortness of

President Blackston of the Illinois Central and Vice-President McMullen of the Chicago and Alton told the Chicago reporters yesterday that they regarded the new agreement as a good one. Although they were not quite ready to say that they would sign it, they were ready to maintain rates under any scheme that might be proposed. The position of the Chicago and Alton in the matter of paying commissions, it was said, might prevent it from endorsing the provision which prohibits such payments.

Chairman Cooley on the Railroad Agreement.

WASHINGTON, Jan. 11 .- Judge Cooley, the Chairman of the Inter-State Commerce Commission, was asked to-day what result he expected from the agreement of the railroad

"I expect the best sort of results," he re-"I expect the best sort of results," he replied. "The agreement of these geatlemen in New York yesterday is the most hopeful sign for the peace and prosperity of the railroads that I have seen since the passage of the Inter-State Commerce law. They all appear to be disposed, and I think they are sincere, to give the law a fair trial, and I believe they will require their officials to do so. If the agreement is faithfully carried out the result will be for the weifare of all concerned."

Commissioner Morrison said: "I think from what I saw and heard in New York that these fellows have decided to quit tooling and obey the law. Fretty much all the brains of the railroad management have been at work to invent measures te circumvent the law, but now I believe they will turn over a new leaf and try to obey it."

CHICAGO Jan. 11.-Express rates from New CHICAGO, Jan. 11.—Express rates from New York, Boston and Philadelphia to St. Paul, Minneapolia, and all points on the Missouri River, have been cut from \$4 to \$1.75. From Chicago to the same points rates are cut from \$2 to \$1, from New York and Boston to Chicago, from \$2.60 to seventy-dive cents, and at many other places rates have also been cut in proportion. Vice-President Crosby of the United States Express Company says the cause of the war was the adoption by the American Express Company of an open rate of seventy-dive cents from New York to Chicago, and \$3 from New York to St. Paul. Agent Barrett of the American Express Company dentes that the war is due to his company's action. He says the trouble began with the failure of one of the companies to keep its agreement, and that his company then out rates to protect itself.

CHAMBERSBURG, Pa., Jan. 11 .- At a serenadchambersoned, F.A., Jahn. 11.—At a sevenad-ing party near Stony Point last night a quarrel took place among some of the serenaders, who had been treated to hard cider. After the quarrel one of the young men, Peter Rhone, was waylaid on his way home by Charles Meredith, with whom he had trouble during the serenade. Rhone was knocked down and beaten so badly that he died in a few hours. Meredith and his companions escaned. This is the fourth murder in Franklin county in five months.

Women Voted in Windsor, WINDSOR, Ont., Jan. 11 .- The poll lists show that nearly all the widows and single ladies whose names are on the tax roll voted for Mayor and other officers at the city election. They were courteously re-ceived at the polis, and, though the election was closely contested, their presence materially helped to keep order. The vote of the women was almost equally di-vided for and against annexation.

Rheumatism

According to recent investigations is caused by excess of lactic acid in the blood. This acid attacks the fibrous tissues, particularly in the joints, and causes the local manifestations of the disease, pains and aches in the back and shoulders and in the joints at the kneed ankles, hips, and wrists. Thousands of people have found in Hood's Sarsaparilla a positive and permanent cure for rheumatism. This medicine, by its parifying and vitalizing action, neutraines the acidity of the blood, and strengthens the whole body. "I was laid up for six months with rheumatism and one of my neighbors told me to take Hood's Sarsapa-

rills. When I had used half a bottle I felt better, and after taking two bottles I think I was entirely cured, as I have not had an attack of rheumatism since."— EUGENE H. DIXON, Ressville, Staten Island, N. Y. Hood's Sarsaparilla

FRIDAY, Jan. 11.

The stock market did not respond to-day to the important developments of Festerday affeeting the value of railroad securities. Wall street does not attempt to disguise its skepti-cism of the permanency of the new agreement entered into by the Presidents of the Granger and Southwestern Trunk lines, and as for the public, its presence in the stock market cannot reasonably be expected until the results have demonstrated the success of the new arrangement. Yesterday's action will in all probability increase in importance as time elapses. In other words, the general appreciation of it will be greater after it has been tested and found satisfactory than it is at present. A view of the matter that the street holds

with a good deal of tenacity should be corrected, namely, that the only incentive of the railroad managers to live up to their new obligations is their need of financial aid. That is, that the only companies that can be depended upon to keep the agreement are those that have been reduced to such straits financially that they have had to apply to the banking interest for assistance. This is a lower estimate of the character of the average railroad manager than THE SUN has over expressed, and it is unquestionably incorrect. Stockholders and bondholders have had more to do with bringing about the negotiations that terminated yesterday than any one else. The bankers simply represented the security holders, and it was eminently proper that they should accept the responsibility of doing so.

of transactions, but the trading showed ne animation until the last hour. What little speculation there was centred in St. Paul common, Erie, and Northwest, London reflected a little Erie, and Northwest. London reflected a little more confident feeling, but in this market the only manifestation of that sentiment was, as it has been for several days past, in the bond market. The only features of interest outside of the Granger group were some of the specialties, notably Pullman Palace Car, Manitoba, Erie preferred, Canada Southern, and N. Y. and Perry Coal. All of them were strong and with one exception closed higher. The tone at the close was strong, and in the final trading the first signs were detected of buying by other than the professional element.

The rumors that were current in Wall street this afternoon that Messrs. Drexel, Morgan & Co. had bought a large block of Chicago, Rock Island and Pacific Railroad bonds from tha company, probably arose from the fact that the firm referred to recently purchased from Messrs, Ruhn, Loeb & Co. and its other associates in a syndicate that some months ago took the last of the extension 5 ? cent, bonds issued by the Rock Island Company, the unsold balance of that issue amounting to about \$2.250.000. There has been no transaction with the railroad company, and it has no bonds to sell. The deal was simply the purchase by one member of a syndicate of the interest of the other members.

The President of one of the larger anthracite coal companies, in speaking to-day of the condition of the trade, said that the dulness was not as pronounced as it usually is at this time of the year, and that, considering the unseasonable weather, the demand keeps up surprisingly well. In reference to current reports that the miners were likely to demand higher wages on account of the prosperity of the trade last year, he called attention to the fact that the success of the industry had not been due to any advance in the price of coal, but to the larger volume of business done, and that the miner had been correspondingly benefited by steadler employment than ever before. Besides, the scale of wages now in operation is such that the miner gets his proportion of any advance in the price of coal above a certain figure, upon which the standard of pay is fixed.
